

ARCHIT MISHRA

Bengaluru, India | Ph: +91 9161251999 | architmishrapro@gmail.com | www.linkedin.com/in/marchit/

EDUCATION

INDIAN INSTITUTE OF TECHNOLOGY KANPUR

Bachelor of Technology

Major in Chemical Engineering, Second Major in Electrical Engineering

Cumulative GPA: 8.7/10.0

Kanpur, India

June 2017 - June 2022

WORK EXPERIENCE

GenAI Powered Internal Audit Platform, AB InBev

Bengaluru, India

Data Scientist in Global Risk Management

Feb 2024 – present

- Full-Stack GenAI Platform: Lead a 3-5 person team to conceptualise, architect and deploy IntelX (Python Flask, OpenAI API, LangChain, Next.js) on Azure microservice-based architecture - integrating Azure services and **CI/CD pipelines**.
- AI-Driven Audit Research: Built a GDPR compliant chatbot fine-tuned to PII-scrubbed and encrypted company data, enabling auditors to retrieve context-aware guidance instantly, through a tool-use agent.
- RAG & Agentic-Graph Architecture: Implemented an **agentic framework and Retrieval-Augmented Generation pipeline on >1000GB of unstructured and structured datasets** across 130 markets—using LangGraph and multimodal reasoning LLMs - to orchestrate multi-step manual auditing workflows into automated chain reasoning agents.
- Ensured >99.8% accuracy through evaluations such as 'LLM-as-a-Judge' and 'Human-in-the-Loop' architectures.
- **~4,000 people-hours saved annually**: Chatbot slashed audit prep from 2 weeks to 2 days, enabling faster time-to-insights
- **100+ users onboarded** with 3000+ monthly queries to IntelX - establishing it as the global go-to audit tool.

Global Procurement Audits, AB InBev

Bengaluru, India

Data Scientist in Global Risk Management

June 2023 – Feb 2024

- Led Multi-Region Audits Across End-to-End Source-to-Pay (S2P) Cycle: Executed in-depth audits across multiple continents over three quarters, covering \$ 500M+ in procurement spend across various categories
- Anomaly Detection using LLM: Uncovered master-data tampering, risky transactions and control lapses using reasoning models(OpenAI o3-mini) to check transactions against company policies—driving improved policy enforcement.
- \$ 13 M+ Realised Savings: Exposed payment-term mismatches (\$6.6M), early-payment costs (\$0.9M), credit recoveries (\$0.8M), contract non-compliance avoidance (\$7M), and \$3.7M in aged-goods cost corrections.

Global Inventory Analytics, AB InBev

Bengaluru, India

Associate Data Scientist in Global Risk Management

Aug 2022 – June 2023

- \$7B Inventory Visibility & ETL Automation: Built end-to-end pipelines (SAP RFC → Python → Apache Airflow → Azure Analysis Services) to consolidate global SAP data into Inventory Health KPI dashboards.
- \$1B Reduction & \$60M Working Capital Recovery: Identified surplus/overbuy trends through consumption-based forecasting, enabling leadership to cut inventory and free up capital.
- Enabled Strategic Decisions with Executive-Level Visibility: Delivered monthly SteerCo presentations to inventory directors, transforming raw data into actionable insights that shaped long-term inventory strategy.

SKILLS

GenAI & LLM Stack: LangChain, LangGraph, Azure OpenAI / OpenAI API, Microsoft Cognitive Services, Hugging Face, Ollama, Vector Databases, Prompt Engineering, Pinecone, FAISS, MLFlow

Programming & Frameworks: Python, Flask, Next.js, PyTorch, Keras, Tensor Flow

Data Engineering & Pipelines: Apache Airflow, Data Factory, Databricks, PySpark, SQL Server, Blob Storage, Dataverse

Cloud & DevOps: Azure App Service, Azure Functions, Azure DevOps, CI/CD Pipelines, Docker, Git, GitHub, Azure Git

Analytics & Low-Code: Power BI, Power Platform, Power Automate, Azure Analysis Services

CERTIFICATIONS

GenAI Certifications: Building Generative AI Skills for Developers

ML Certifications: Deep Neural Networks with PyTorch, Convolution Neural Networks, ML Foundations: Statistics
